Thank you for choosing Hollywood Dog Training School. We look forward to training your dog and educating you and your family about a balanced dog care program. This handout is designed to answer some of the most commonly asked questions and to set forth some of our guidelines and policies.

Please give your dog two or three days to settle in before the first check up call. We will let you know how your dog is eating, whether he/she is clean in the kennel and who will be training your pet. Call if you wish at seven to ten day intervals. The receptionists will get the current information on your dogs progress and relay it back to you. Each trainer has a string of dogs they are responsible for and it isn't always possible for them to speak on the phone each time you call. Be assured that time will be made to explore any training issues or pressing concerns you may have.

Mr. Karl assigns each dog the trainer he believes will develop the dog to its best potential. Please feel free to give us any information or requests you may have. Dogs usually stay with one trainer unless specific issues suggest a change would be beneficial for the dog.

VISITATION / APPOINTMENTS: In general visiting your pet is OK while they are in training. However it is recommended that the dog be allowed to settle in first. Each dog settles in at a different rate, therefore please check with your trainer before scheduling a visiting appointment. You must always schedule an appointment before coming in to visit your dog. Please be prompt for all appointments. If you are over half an hour late for an appointment your trainer may not be available and the appointment will be canceled.

WHAT TO BRING: Just bring us your dog, we have all the bedding and supplies needed. If you want to bring something then one or two toys and some inexpensive, machine washable bedding is recommended. Please understand we cannot be responsible for lost or destroyed articles.

LESSONS: There will be two to six handling lessons before you take your dog home. The number of lessons depends on the course, temperament of your dog and your handling skills. We assign one week for instruction with our basic training or ten days of instruction with our advanced program. The 'On-Leash' program includes one free lesson in your home. The 'Off-Leash' program includes another in-home lesson. All of our in-kennel training programs include unlimited handling lessons for you and your dog at the kennel for the lifetime of the dog, even if the dog changes ownership. We pride ourselves in our extensive support of you and your dog after the obedience course is finished. Please use us to your fullest advantage.

CHARGES: The charges of the program have already been quoted to you. There are no additional charges if your dog needs more work and we extend his/her time frame. However, if your dog is ready and *your* scheduling is a problem beyond the above mentioned time frame you will be charged a prorated daily or weekly rate. The only additional charges should be items you authorized such as rawhides, baths and/ or brush-outs. Twenty four hour notice must be given if you intend to cancel an appointment. A \$25 fee will be charged for missed appointments.
